Profile Summary

I'm a recent Computer Science graduate from Daffodil International University with a CGPA of 2.94/4.00 and a passion for machine learning, sustainable AI and data analytics. My thesis involved developing a CNN-powered web app that accurately detects paddy leaf diseases, achieving about 89 % accuracy, showing my ability to translate research into practical solutions for farmers. Through internships, I built interactive dashboards and optimized ERP workflows, improving stock-tracking accuracy by 15 % and honing cross-functional collaboration skills. I've presented research at IEEE conferences, won an ICT Olympiad quarterfinal, and hold certifications in AI & ML; I now seek an MSc program abroad to deepen my expertise in data-driven decision-making and contribute to innovative solutions in healthcare and agriculture; and move from capable practitioner to independent researcher.

Education

Bachelor of Science in Computer Science and Engineering (CSE) *Daffodil International University, Dhaka, Bangladesh* | 08/2020 – 09/2024

- CGPA: 2.94 / 4.00
- Thesis Grade: 3.75 / 4.00 (Grade: A)
- Key Coursework: Artificial Intelligence (A-), Neural Networks, Data Structures (A), Computer Graphics (A-), Calculus, Linear Algebra.
- Thesis: *Advancing Smart Farming Through Research-Based Web Application Integration: Investigating Machine Learning Solutions for Paddy Leaf Disease Identification in Sustainable Agriculture.*

Developed a CNN-based model for identifying Paddy Leaf Disease, contributing to sustainable agriculture solutions.

RESEARCH & PUBLICATIONS

Conference Paper | *IEEE CS BDC Summer Symposium* | June 2023

- Title: "Play Store Review Data Analysis: Dock Time Application" (Paper ID: 204).
 - Impact: Conducted data analysis on user reviews to derive actionable insights for application optimization, certified by IEEE, through R & I coursework.
-

Research Interests

- Machine Learning & Deep Learning
 - Sustainable AI (AgriTech innovation)
 - Data Analytics & Visualization
 - Intelligent Web-Based Systems
-

Professional & Internship Experience

Excelerate (Dubai | USA,) | Data Visualization Intern (*Remote*) 03/2025 – 04/2025

- Developed data visualization dashboards using Power BI, Tableau, and Python.
- Assisted in analyzing large datasets to generate insights for business decisions.
- Contributed to storytelling and visualization best practices.
- Collaborated with a global team to plan and execute analytical projects.

Excelerate (Dubai | USA,) | Digital Marketing Virtual Internship (*Remote*) 04/2025 – 05/2025

- Conducted social media audits and audience behavior analysis.
- Executed SEO research, keyword optimization, and content analytics.
- Assisted in strategy development to enhance brand visibility.
- Supported campaign performance reporting.

Syntor IT (Dhaka) | ERP Implementation Intern (*Freelance*) 12/2024 – 03/2025

- Assisted in implementing ERP modules and optimizing system workflows.
 - Conducted user acceptance testing and cross-team coordination.
 - Supported SQL-based reporting and data migration tasks.
-

Projects

Smart Farming Web App (Deep Learning Based Paddy Leaf Disease Detection)

07/2023 – 07/2024 | NLP & ML Lab, DIU

- Designed an intelligent web platform integrating CNN models for real-time paddy disease detection.
 - Applied image preprocessing, model training, and performance evaluation techniques.
 - Project aligned with sustainable agriculture and computer vision research.
-

Certifications & Training

- AI & ML with Python – ITBI CUET — 6-month training (completed Mar 2026); covered machine learning algorithms, neural networks, Python programming and hands-on Capstone projects.
 - AI+ Prompt Engineer Level 1™, AI CERTs (2025)
 - Agent X: AI Prompting Competition, NetCom Learning (2025)
 - “Mastery in pandas using python” Certified by Skill.Jobs.
 - Cisco Certified Network Associate (CCNA) – Cisco Networking Academy (2023)
-

Awards & Achievements

- Quarter-Final Winner, ICT Olympiad Bangladesh (2024)
 - Certificate of Appreciation, MIST Leetcon HackMeIfYouCan (2023)
 - Recognized for contributions to AI prompting and GPT projects during Agent X Competition
-

Extracurricular Activities & Leadership

Quarter-Finalist, ICT Olympiad Bangladesh | *Season 2 (2024)*

- Competed against nationwide participants in technical problem-solving rounds, demonstrating quick thinking and coding proficiency.

Participant, MIST Leetcon Hackathon | *Military Institute of Science and Technology | Jan 2023*

- Participated in the "HackMeIfYouCan" Webinar, participating with friends to gain knowledge about cyber security and their application.

Member, Computer Programming Club (CPC) | *Daffodil International University*

- Actively participated in coding workshops and intra-university programming contests to sharpen algorithmic skills.

- Collaborated with peers on development projects and hackathons, fostering a culture of peer-to-peer learning.

Robotics & Project Competition Participant | *DIU Intra-University* | 2022

- Showcased technical projects and engaged in robotics challenges, applying hardware-software integration concepts 'On automated detect temperature & hand wash project for Covid-19'.

Technical Skills

- Programming: Python, C, JavaScript
- Machine Learning: CNNs, Data Preprocessing, Model Evaluation, Prompt Engineering
- Tools: Power BI, Tableau, VS Code, Git, Canva
- Web Technologies: HTML, CSS, React (Basic)
- Databases: SQL (Basic), ERP System Management
- Networking: Cisco Packet Tracer, Routing & Switching

Soft Skills

Analytical Thinking • Research Documentation • Team Collaboration • Problem Solving • Communication

Languages

- Bangla – Native
- English – Proficient
